## Lesson 75

I. Whitney walked 4 miles on Monday, 4 miles on Tuesday, and 7 miles on Wednesday. How many miles did she walk in all?

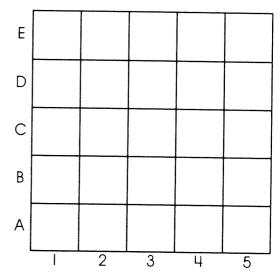

Whitney walked a total of \_\_\_\_ miles.

$$3. 7 + 19 =$$

$$4. \quad 28 - 19 =$$

5. Draw a n in the block 3B.

## Lesson 76

1. There are 36 computer disks in Lyle's office. If 18 of the disks are already filled with information, how many of the disks are not filled?

\_\_\_\_ of the disks are not filled.

$$2. 53 + 24 =$$

$$3. \quad 21 + 19 =$$

4. 
$$15 - \underline{\phantom{0}} = 9$$

5. Circle the 2 figures that are congruent.
