INTRODUCTION

New Paltz Central School District

K-12 Comprehensive Student Support Services Counseling Program 2023-2024

Regulations Effective July 1, 2019

“Amendments to subdivision (j) of section 100.2 of the Regulations of the Commissioner of Education were adopted by the Board of Regents effective July 1, 2017. The amended regulations govern comprehensive developmental school counseling programs beginning with the 2019-2020 school year. The full text of the regulation is available here:

<http://www.regents.nysed.gov/common/regents/files/517brca14.pdf>

Every school district will need to make personnel decisions based on student needs and current staffing configurations. It is important to emphasize the positive effects that school social workers, school psychologists, school counselors, school nurses, health educators, teachers, and parents have on student success when they collaborate and work as a team, offering their respective professional expertise to support the “whole child.”

The Department’s Every Student Succeeds Act (ESSA) State Plan aligns with these amended school counseling regulations by including provisions that encourage schools and districts to adopt a “Whole School, Whole Community, Whole Child” multi-tiered model to promote positive school climates that, in turn, improve student outcomes.

School climate is the way school culture affects a child’s sense of safety and acceptance, and consequently, is a critical determinant of their ability to focus on the task of learning.

For all grades kindergarten through twelve, district and building level comprehensive developmental school counseling/guidance programs shall prepare students to participate effectively in their current and future educational programs as age appropriate.

Additionally, the program shall be designed to address multiple student competencies including career/college readiness standards, and academic and social/emotional development standards.”

1. Brief description of school district

New Paltz Central School District (NPCSD), located in Ulster County, New York, is a comprehensive public school district, serving students grades Pre-K to 12th and ages 3 to 21 years old. NPCSD is comprised of four schools: New Paltz High School, serving grades 9-12; New Paltz Middle School, serving grades 6-8; Lenape Elementary School, serving grades 3-5; and Duzine Elementary School, serving grades PK-2.

New Paltz, New York is located about 80 miles north of New York City and is part of the Catskill Mountains known as the “Shawangunks.” Bordered to the east by the Hudson River, we have abundant natural resources within our community from Minnewaska State Park, the Mohonk Preserve, the Millbrook Preserve, and the Nyquist-Harcourt Wildlife Sanctuary. Additionally, the Historic Huguenot Street National Park is located in the Village of New Paltz. The town contains a number of farms and Community Supported Agricultural endeavors. The State University of New York at New Paltz campus is in the Village, a university campus of about 8,000 undergraduate and graduate students.

New Paltz High School - 668 students in Grades 9-12;
New Paltz Middle School - 421 students in Grades 6-8;
Lenape Elementary School - 367 students in Grades 3-5; and
Duzine Elementary School - 317 students in Grades K-2.

Within the Mid-Hudson Region of New York State, NPCSD is respected as a high-performing district, known for its reputation of offering rigorous courses that prepare students for college and career. During the 2022-23 school year, New Paltz High School offered 11 college-level courses, 17 Advanced Placement Courses and dual-credit programming with SUNY New Paltz, SUNY Ulster, SUNY Albany, and the Rochester Institute of Technology (RIT). New Paltz High School also partners with the Ulster County BOCES to offer students a career exploration program called “New Visions,” as well as a wide variety of Career and Technical Education (CTE) programs and a six-year P-Tech program.

Within Ulster County, the district has had the highest graduation rate, the highest Advanced Regents percentage, and the lowest drop-out rate. Nationally, New Paltz High School has been distinguished by the Washington Post for eleven consecutive years as one of “America’s Most Challenging High Schools.”

NPCSD has a very active parent community that is deeply committed to the school district, as well as the pursuit of higher education. As a college town, the ties to higher education are visible and significant. New Paltz families frequently attend open meetings, public events, and school board meetings.

2. Board of Education Vision & Mission statements

Mission

The New Paltz Central School District exists for the children of the community. The focus of its programs and activities is the commitment to measured excellence and continuous growth and development for all.

Vision

Our school community - students, staff, families and community members - are citizens of the world, passionate about learning and empowered to achieve their dreams.

Citizens of the world: responsible, ethical, contributing, participating members of local, national and global communities who value all peoples and care about each other; we respect the environment, work to improve the society in which we live, and understand our role in it.

Passionate about learning: confident and reflective, curious, nimble thinkers whose knowledge of the past makes them capable of questioning, analyzing and assimilating new information. They are technologically creative and able to imagine alternatives to what is and what is yet to be. They also dare to be risk takers in crafting their futures.

Empowered: they are well prepared to be self-directed and expressive, to develop and use their personal skills and abilities, to be comfortable with change, achieve deep understanding, make informed and wise decisions, and to cooperate, collaborate and compete. They live a healthy lifestyle, are creative, and are empowered to achieve their dreams.

Historical Grad Data 2006-2022

National School Clearinghouse College Data Graduating Classes: 2013-2020

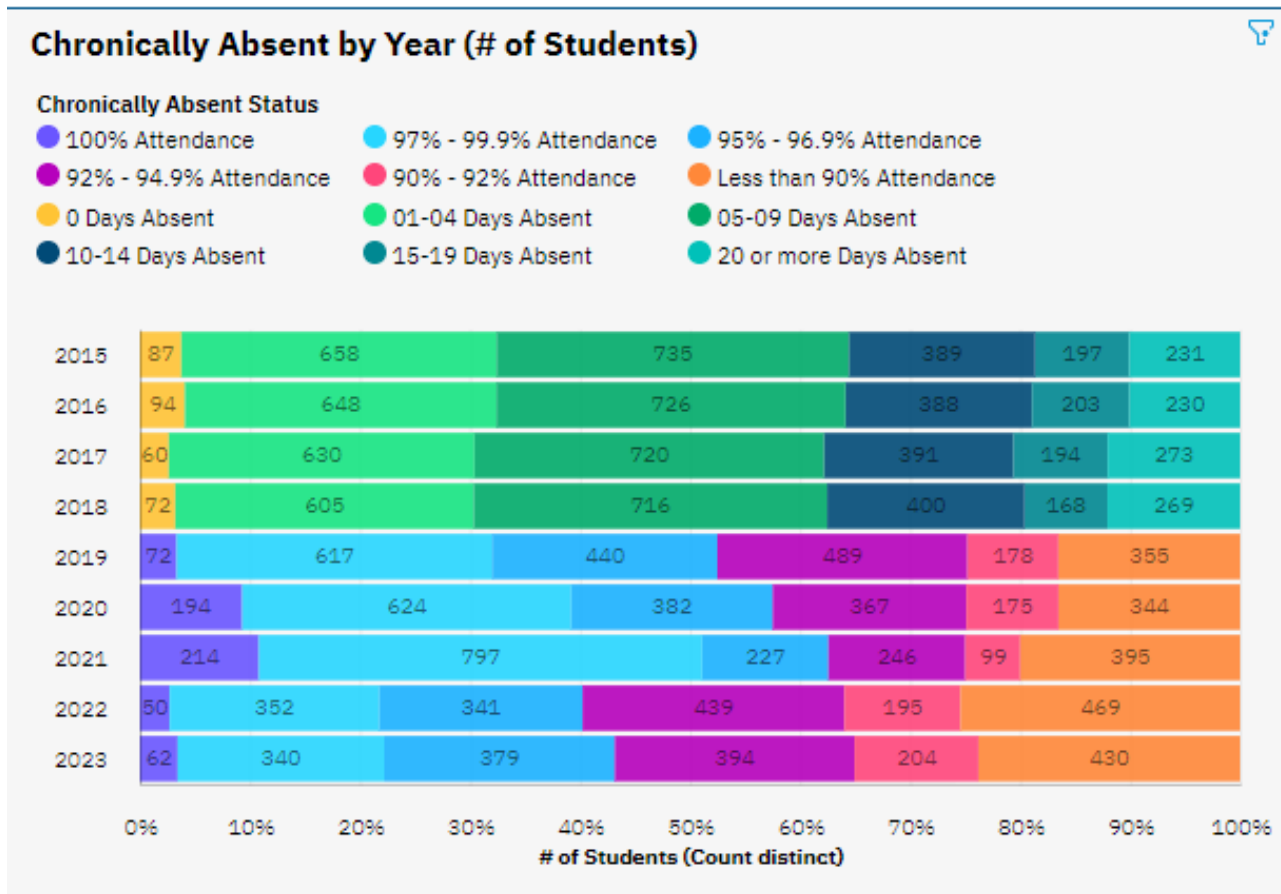

Attendance/Chronic Absenteeism remains an issue within the district. It is a challenging problem to solve, as the entire system of a school needs to be focused on re-engaging chronically absent students and transitioning them successfully back to school. At the close of school year 2022-23, 430 students district wide are considered chronically absent.

Duzine Elementary School has the highest percentage of chronically absent students, with just over 28% of their population having missed more than 10% of the school year (88 students), with First Grade having the highest percentage (32.1%). The High School had the second highest rate with 24% or 164 students chronically absent. Seniors had the highest chronic absenteeism rate (25.2%). Other grades with a chronic absenteeism rate over 25% are Kindergarten (29.7%), 3rd Grade (25.0%), 9th Grade (25.3%), and 10th Grade (25.2%).

Chronic absenteeism has been increasing in the district since 2015.

4. K-12 Counseling Program Overview

In support of New Paltz Central School District's mission and goals, the Student Support Services counseling program's mission is to assist students to be happy and healthy and in the recognition and development of their unique abilities centered on a respect for diversity and equity. Counselors and student support faculty and staff will provide an engaging curriculum that encourages the highest level of student achievement through their growth in academic, career, and social emotional domains. In partnership with teachers, administrators, parents and the caring community, the counselors will help all students to be successful, life-long learners and problem solvers.

The New Paltz Central School District Student Support Services Counseling Program developed by administrators, K-12 counselors, psychologists and social workers is an integral part of the educational process and addresses the academic, career, and personal/social needs of all students. The primary goal of the program is to promote and enhance student health, wellness, and achievement, using the [American School Counseling Association's Student Standards: Mindsets & Behaviors for Student Success](#) as our framework.

The counselors (school counselors, social workers, school psychologists) of the New Paltz Central School district provide services to students, parents, school staff and the community through:

Counseling core curriculum: This curriculum consists of structured lessons designed to help students attain the desired competencies and to provide all students with the knowledge, attitudes and skills appropriate for their developmental level. The counseling core curriculum is delivered systemically by counselors in classroom and group activities.

Individual student planning: Counselors coordinate ongoing systemic activities designed to assist students in establishing personal goals and developing future plans.

Responsive services: Responsive services are activities designed to meet students' immediate needs and concerns. Responsive services may include counseling in individual or small-group settings or crisis response.

Indirect Student Services: Indirect services are provided on behalf of students as a result of the counselors' interactions with others including referrals for additional assistance, consultation and collaboration with parents, teachers, other educators and community organizations.

Additionally, the NPCSD School Counseling Plan utilizes other standards and frameworks to support the development of the program. These include: [The NYS SEL Benchmarks](#), the [The NYS Culturally Responsive-Sustaining Education Framework](#), and the [The NYS Mental Health Education Literacy in Schools Guide](#).

An annual evaluation of the plan will be conducted to determine effectiveness and inform any changes that need to be incorporated to address the needs of the K-12 student body informed by data. The annual evaluation contains a program assessment (Appendix A) by the School Counseling Advisory Council, evaluation data from program activities, student outcome data including graduation rate, attendance, and student performance. It may also include student participation in athletics and extracurricular activities.

ASCA Student Standards: Mindsets & Behaviors for Student Success K-12 College-, Career- and Life-Readiness Standards for Every Student

Each of the following standards can be applied to the academic, career and social/emotional domains.

Category 1: Mindset Standards

School counselors encourage the following mindsets for all students.

- M 1. Belief in development of whole self, including a healthy balance of mental, social/emotional and physical well-being
- M 2. Sense of acceptance, respect, support and inclusion for self and others in the school environment
- M 3. Positive attitude toward work and learning
- M 4. Self-confidence in ability to succeed
- M 5. Belief in using abilities to their fullest to achieve high-quality results and outcomes
- M 6. Understanding that postsecondary education and lifelong learning are necessary for long-term success

Category 2: Behavior Standards

School counselors provide culturally sustaining instruction, appraisal and advisement, and counseling to help all students demonstrate:

Learning Strategies	Self-Management Skills	Social Skills
B-LS 1. Critical thinking skills to make informed decisions	B-SMS 1. Responsibility for self and actions	B-SS 1. Effective oral and written communication skills and listening skills
B-LS 2. Creative approach to learning, tasks and problem solving	B-SMS 2. Self-discipline and self-control	B-SS 2. Positive, respectful and supportive relationships with students who are similar to and different from them
B-LS 3. Time-management, organizational and study skills	B-SMS 3. Independent work	B-SS 3. Positive relationships with adults to support success
B-LS 4. Self-motivation and self-direction for learning	B-SMS 4. Delayed gratification for long-term rewards	B-SS 4. Empathy
B-LS 5. Media and technology skills to enhance learning	B-SMS 5. Perseverance to achieve long- and short-term goals	B-SS 5. Ethical decision-making and social responsibility
B-LS 6. High-quality standards for tasks and activities	B-SMS 6. Ability to identify and overcome barriers	B-SS 6. Effective collaboration and cooperation skills
B-LS 7. Long- and short-term academic, career and social/emotional goals	B-SMS 7. Effective coping skills	B-SS 7. Leadership and teamwork skills to work effectively in diverse groups
B-LS 8. Engagement in challenging coursework	B-SMS 8. Balance of school, home and community activities	B-SS 8. Advocacy skills for self and others and ability to assert self, when necessary
B-LS 9. Decision-making informed by gathering evidence, getting others' perspectives and recognizing personal bias	B-SMS 9. Personal safety skills	B-SS 9. Social maturity and behaviors appropriate to the situation and environment
B-LS 10. Participation in enrichment and extracurricular activities	B-SMS 10. Ability to manage transitions and adapt to change	B-SS 10. Cultural awareness, sensitivity and responsiveness

Program Foundation

1. Policies and Procedures

The New Paltz CSD counseling program requires that regulations and procedures are in place, clearly defined, and communicated to stakeholders to ensure compliance with Board of Education policies and administrative guidelines. They include the following:

- Academic Course Placement/Requests
- Add/Drop Procedures
- Annual Individual Progress Reviews
- Child Abuse, Suicide Ideation and Self-Injurious Behavior
- Confidentiality
- Course/Schedule Changes
- Credit Recovery
- Crisis Response Team
- Early College Experience
- Grading Expectations
- New Student Registration

Program Delivery

1. **Curriculum** The student support services counseling curriculum is based on a needs assessment of the student population served by the counseling program. The curriculum is delivered to all students and supports the goals of the district's strategic plan for student academic improvement. There is a written curriculum of the counseling instructional program delivered and/or coordinated by counselors, which is integrated across the content areas – academic, career, and personal social development. The curriculum component:
 - is planned;
 - ongoing and systematic in delivery;
 - includes a clear explanation of the scope and sequence of its units of instruction;
 - clearly outlines the goals and competencies students will achieve at each grade level; and
 - indicates the methods and time lines for delivery of units of instruction to each grade.

2. **Individual Planning** The counseling program provides ongoing systematic activities and services to help all students in developing, monitoring and evaluating their own academic personal and career goals. There is a systematic delivery of individual student planning sessions on an annual basis beginning in grade 6 and continuing through the high school years. These sessions, which begin in middle school, result in an ***Annual Progress Review Plan*** (*Appendix B*) for each student through the collaborative efforts of counselors, parents, teachers, and administrators.

3. **Responsive Services** The procedures, activities and services of the New Paltz counseling program ensure appropriate and timely response to immediate needs of students.
 - Intervention services are delivered through individual and/or group counseling.
 - Prevention and intervention services are delivered in collaboration with teachers, administrators, and student services staff and consistent with each building's Response to Intervention (RtI) guidelines.
 - The consultation process is used by counselors to share and exchange information to help students succeed in their academic, career and personal/social development.
 - Participation on school based teams with other specialists and/or community professionals used by counselors to identify services for students in need.

4. **Collaboration Within and Outside the School Community**

The counselor conducts informational and skill building workshops for parents/guardians that complement the counseling curriculum. Counselors contribute to the school community through the following activities:

 - Delivery of a counseling program that supports the school's mission and goals of improvement;

- Collaboration with community leaders to identify resources for student development and interventions;
- Consultation with teachers, administrators, and parents regarding student needs;
- Providing professional development and information to faculty and staff on student related issues;
- Providing workshops and information sessions for parents;
- Maintenance, review and revision of a plan to communicate program goals, outcomes, activities and services to all constituents served by the counseling program.

K-5 Elementary Program Overview

Developmental Needs of Elementary School Students

Social, emotional, and cognitive development are interdependent, research shows that children need social and emotional competence to succeed in school. The developmental needs of elementary school students vary from student to student and school to school, with classroom teachers working to provide the most valuable learning experience and meeting each of those needs in every child. The development of a child's social emotional skills will impact their learning and growth throughout school and life, and teaching children how to self-regulate their emotions will lead to positive learning and life experiences. Students who are socially and emotionally skilled score higher on standardized tests, and social and emotional competence leads to greater academic competence over time.

Social Emotional Learning Curriculum at Duzine and Lenape Elementary Schools

Classroom teachers help all students improve academic achievement, support personal and social emotional development, and assist with all levels of student achievement. Classroom teachers, social workers and school psychologists will focus on developmental issues and skills which are addressed.

Topics to be Covered

- Self-Management
- Relationships and Communication Skills
- Feelings
- Resiliency
- Empathy, Compassion and Acceptance
- Gratitude and Forgiveness
- Resource Management

One important goal is to introduce students to tools and strategies to identify and regulate emotions and responses. Self-regulation can go by many names such as self-control, self-management, anger-control and impulse-control. These terms describe people's ability to adjust their level of alertness and how they display their emotions through their behavior in socially adaptive ways.

Foundational lessons and periodic maintenance lessons will be taught across elementary school settings. Teachers will extend learning through additional lessons to meet the needs of their individual classroom.

Duzine/Lenape Elementary School Program Delivery Map

Timeline	Grade Level/s	Program Activity	Target Students	Mindsets/Behaviors/SEL	Tier	Program Objectives <i>(students will be able to....)</i>	Assessment/ Evaluation Method

Middle School Program Overview

Developmental Needs of Middle School Students

Middle school can be a challenging time for students, their parents and teachers. There are increased academic demands and social pressures for middle school students, which influence their identity. They are heavily influenced by their peer group and searching for a place to belong. During these pre-adolescent years, students are beginning to develop an understanding of who they are and how their thoughts and actions affect others in a positive or negative way.

They are building their communication and critical thinking skills to foster healthy relationships with others and become responsible citizens. Middle school is a time for students to take ownership of their learning and to acquire the appropriate study habits and social skills necessary for success in high school.

Counseling Curriculum at the Middle School

Counselors help all students improve academic achievement, support personal and social development, and assist with college and career planning. School counselors meet with every student through individual meetings, groups and classroom lessons. These developmental issues are addressed through the academic, career, and personal/social goals of the counseling curriculum, which cover the broad areas of transition issues, peer relationships, academic competencies (e.g., study skills, homework, time management), and future education/career planning. Individual planning sessions that are initiated in grade 6. They assist the students to analyze their abilities and interests, and determine short and long-term goals.

Topics to be covered

- Transition from grade 5 to grade 6 for students and parents
- Transition for grade 8 to grade 9 for students and parents
- Academic expectations, school activities and support system
- Study skills, homework and time management
- Respect for others and stereotypes
- Developing academic S.M.A.R.T.I.E. goals and goal setting
- Individual planning/course planning
- Parent meetings and presentations
- Conflict resolution
- Self-advocacy, self-directed learning and assertive communication
- Healthy friendships and respecting personal boundaries
- Coping strategies and managing stress
- Introduction to post-secondary education options and careers
- Growth mindset and building self-awareness

High School Program and Overview

Developmental Needs of High School Students

High school is the final transition into adulthood and the world of work. This is the age when teens begin separating from parents and exploring and defining their independence. Students are deciding who they are, what they do well, and what they will do when they graduate. During these adolescent years, students are evaluating their strengths, skills and abilities. The biggest influence is their peer group. They are searching for a place to belong and rely on peer acceptance and feedback. They face increased pressures regarding risk behaviors involving sex, alcohol and drugs while exploring the boundaries of more acceptable behavior and mature, meaningful relationships. They need guidance in making concrete, and often complex, decisions. They must deal with academic pressures as they face high-stakes testing, the challenges of college admissions, scholarship and financial aid application processes, and entrance into a competitive job market.

Counseling Curriculum at New Paltz High School

The comprehensive counseling curriculum at the high school continues to support student development in the academic, career and personal/social areas. The focus of the curriculum at this level is on transitioning middle school students to the high school environment, assisting all students with planning for postsecondary planning (e.g., higher education, career plans, employment skills and goals), involving parents in the postsecondary planning process, and providing identified students with counseling support to remove barriers to academic and personal success. Counselors deliver curriculum through a variety of instructional strategies that primarily include classroom lessons and individual/small group counseling sessions. Counselor efforts are reinforced by teachers, support staff and administrators through their systemic involvement in the Instructional Study Team.

Topics to be Covered

- Transition from middle to high school
- Academic expectations, school activities, support system
- Individualized academic planning
- Personal/social development
- Conflict resolution/peer mediation
- Academic expectations, school extra-curricular activities and support system
- Study skills, homework and time management
- Respect for others, self and stereotypes
- Developing academic plans and transition planning 9th-College
- Post-Secondary supports
- Career exploration
- College readiness, exploration

- Parent consultation, meetings and presentations
- Conflict resolution
- Social connections, independence, self-advocacy, resilience
- Self-directed learning and assertive communication
- Healthy friendships and respecting personal boundaries
- Coping strategies and managing stress
- Introduction to post-secondary education options and careers
- Growth mindset and building self-awareness
- Collaboration with outside agencies to address/advocate for student needs
- Social History, psycho-educational evaluations
- Home visits
- Relationship building

Venues

Student Support Services professionals work in a variety of settings and are flexible to meet the needs of students including the following venues:

- Health, English and Social Studies, Life Preparation, Life Skills classrooms
- 504 meetings, IEP meetings, and parent teacher conferences
- Individual/small group counseling
- Field trips, after school programs
- Student Support Center
- Auditorium, Large Gym, Small Gym
- Meetings, workshops, presentations, and events via Google Meet and Zoom (pandemic - 2019-2020 and 2020-2021 school year)

Framework for Assessment

Benchmark indicators of progress are listed below. This is not an inclusive list as additional evaluative tools and data will likely develop over the course of the 2023-2024 school year.

- Improvement in attendance rates
- Increase in participation in extracurricular activities
- Improvement in passing rates
- Decrease of referrals to alternative settings
- Fewer referrals to intensive outpatient treatment programs
- Decrease in DASA complaints
- Decrease in 504 and CSE referrals

- Decrease in number of students on home instruction
- Increased participation in Restorative Justice practices,
