CEA

Ms. Mallory's Civil Engineering and Architecture class went outside to survey the baseball field area. Learning to set-up and read the auto level and Philadelphia rod are two of the things that students took part in. Students learn to design and build houses in this class and understand all the science behind building. It's a fun class with learning that will extend beyond your high school career!

SPANISH 6

On Thursday, May 11 and Friday, May 12, Spanish 5 and Spanish 6 classes were treated to a presentation by Paige Sarvis, a Pre-Med student at West Virginia University and a New Paltz HS graduate of 2020. As a Junior in College, Paige had the opportunity to travel with Global Medical Brigade to Panama for eight days to help with establishing a clinic for local marginalized and impoverished communities. Paige and 49 of her classmates experienced first-hand medical experience by interviewing and providing basic services. Even though Paige is not a native Spanish speaker, she was also designated as the only student capable of translating for patients and doctors because of her Spanish education. Our students were so engaged in asking her questions and more information. Paige's goal is to graduate as a Physician Assistant and continue her work in the Medical Brigade and eventually in Doctors Without Borders with the hope of starting her own nonprofit medical practice in Latin America. Thank you, Paige! -Mr. Castro

ATHLETICS

New Paltz Girls Track team participated in the Race at the Oval Office last Saturday with many personal bests. It was finally a warmer day to run. The Freshman/Sophomore girls scored separately, and took home a first place trophy. That was an added treat for the day. -Coach Gregory

Congratulations Girl's Varsity Softball on a win against Wallkill!!!
