Around NPHS

Dear New Paltz High School Families,

Over the past week we have felt the impact of the tragic loss of 10 people because of the color of their skin, a trait that they did not choose. Hatred is poisonous and breeds such ugliness in our world. Let us teach our youth to appreciate themselves and the differences in one another. It is important for them to understand their shared histories and the collective human nature. We can make a difference in this world's future if we cultivate genuine community love amongst our young people. There is no place for hate.
